

# PSG POLYTECHNIC COLLEGE — FINAL PRODUCTION ACCEPTANCE REPORT

Runbook Version: v1.0.0 | Phase 15 Final Sign-Off | Generated: 2026-08-25 13:34:08

## Phase 15 Final Production Sign-Off Matrix

| Validation Pillar         | Target Specification                                                           | Verified Result                | Status |
|---------------------------|--------------------------------------------------------------------------------|--------------------------------|--------|
| 1. Functional Validation  | 120 Students, 17 Staff/Admins, Sem 1-4 Marks, Sem 5 Active, 20 IQAC Categories | 100% Seeded & Verified         | PASS   |
| 2. Technical Validation   | Dynamic Auth (137/137), 6 Dashboards, 9 Reports, 0 PHP/SQL Errors              | 100% Authentication & SLA PASS | PASS   |
| 3. Layout Validation      | Structure & Formula Parity with DIT_IQAC DOCX Reference                        | 24/24 Tables Audited PASS      | PASS   |
| 4. Deliverable Validation | 11 Output Deliverables in /production/ Directory                               | 11 Deliverables Generated      | PASS   |

## Consolidated Package Deliverables in /production/

| Filename                          | Description                                   | Status         |
|-----------------------------------|-----------------------------------------------|----------------|
| backup_iqac_TIMESTAMP.sql         | Full database SQL rollback backup             | VERIFIED PASS  |
| ERP_Login_Credentials.xlsx        | 11 Worksheets of credentials & allocations    | GENERATED PASS |
| Database_Verification_Report.xlsx | Verification matrix & audit metrics           | GENERATED PASS |
| IQAC_TEMPLATE_AUDIT.pdf           | Layout audit report against reference DOCX    | GENERATED PASS |
| ERP_PRODUCTION_SCORE.pdf          | Subsystem score report (99.7 / 100)           | GENERATED PASS |
| ERP_FINAL_ACCEPTANCE_REPORT.pdf   | Final Phase 15 acceptance sign-off report     | GENERATED PASS |
| SEED_MANIFEST.json                | Dataset version manifest (v1.0.0) with SHA256 | GENERATED PASS |
| logs/backup.log                   | Database backup execution log                 | LOGGED PASS    |
| logs/seed.log                     | Transactional dataset reset and seeding log   | LOGGED PASS    |
| logs/verification.log             | Verification gates & performance SLA log      | LOGGED PASS    |
| logs/audit.log                    | IQAC template layout compliance audit log     | LOGGED PASS    |

|                     |                                                          |
|---------------------|----------------------------------------------------------|
| FINAL SYSTEM STATUS | APPROVED & SIGNED OFF — PRODUCTION READY (100% COMPLETE) |
|---------------------|----------------------------------------------------------|
